The registration is conditional on your compliance with the following notes:

Shell side of the heat exchanger registered only.

The finned tubes are designed in accordance with Appendix 23 of ASME Section VIII, Div. 1 per client's confirmation. The notation according to 23-5 of Appendix 23 shall be entered to the MDR under Remarks.

This heat exchanger design has been accepted for registration by ABSA based on the specific operating conditions which provide the Shell and Tube Mean Metal Temperatures as identified in the design condition table in the drawing. This condition must be listed on Form U-5 of the MDR.

This heat exchanger design must be re-evaluated before it is operated at any different operating conditions. Such evaluation records (detailed calculations) must be permanently kept on file with the owner/user of this heat exchanger and be readily available upon request by an A.I.. This note must appear on the Manufacturer's data report. In addition, this heat exchanger shall be supplementary marked as per UHX-19.2.2

An invoice covering survey and registration fees will be forwarded from our Revenue Accounts.
