**Attention:** Tanya Francis

TECHNICAL STANDARDS & SAFETY AUTHORITY

345 CARLINGVIEW DRIVE TORONTO, ON M9W 6N9

The design submission, tracking number 2020-03786, originally received on July 30, 2020 was surveyed and accepted for registration as follows:

CRN: 0C14901.52 Accepted on: August 16, 2020

Reg Type: RENEWAL Expiry Date: July 14, 2030

**Drawing No.:** SCOPE OF CRN REGISTRATION

Fitting type: CONTROL VALVES & GLOBE VALVES

Design registered in the name of : ARI-ARMATUREN USA LP

## The registration is conditional on your compliance with the following notes:

- \*\* This registration covers only those valves that are in strict compliance with ASME B16.34, with respect to dimensions, pressure and temperature ratings, materials, markings etc.
- \*\* Control Valves: 45.440, 45.441, 32.470, 32.471, 35.470, 35.471, 32.448, 52.448
- \*\* Globe Valves: 45.049, 45.149, 32.041, 32.141, 35.041, 35.141

As indicated on AB-41 Statutory Declaration form and submitted documentation, the code of construction is B16.34.

- It is our understanding that the fitting(s), included as the scope of this submission, that is(are) subject to the Safety Codes Act shall comply with the requirements of the indicated Standard or Code of Construction on the AB-41 Statutory Declaration as supported by the attached data which identifies the dimensions, materials of construction, press./temp. ratings and the basis for such ratings, and the identification marking of the fittings.
- This registration is valid only for fittings fabricated at the location(s) covered by the QC certificate attached to the accepted AB-41 Statutory Declaration form.
- This registration is valid only until the indicated expiry date and only if the Manufacturer maintains a valid quality management system approved by an acceptable third-party agency until that date.
- Should the approval of the quality management system lapse before the expiry date indicated above, this registration shall become void.

An invoice covering survey and registration fees will be forwarded from our Revenue Accounts.

If you have any question don't hesitate to contact me by phone at (780) 433-0281 ext 3337 or fax (780) 437-7787 or e-mail Dick@absa.ca.

Sincerely,

DICK, ASHLING, P. Eng. DOP Cert. No. D00007936

Valves			NPS 10"		ASME SA216-WCB			R.0

Note 1: MAWP = Maximum Allowable Working Pressure

Note 2: The pressure-temperature ratings shown are the maximum CRN pressure-temperature ratings. In all cases the MAWP

may be limited by the seat or seal material or other considerations. Please consult ARI-Armaturen literature.

Note 3: Pressure-temperature ratings above 100°F are in accordance with applicable ASME B16.34 Table 2 ratings.

Note 4: Other ASME B16.34 materials may be supplied. When this is the case the pressure-temperature ratings of the ASME B16.34 materials may be supplied. When this is the case the pressure-temperature ratings of the ASME B16.34 materials may be supplied. to be in accordance with the applicable ASME B16.34 Table 2 ratings.

Note 5: Per ASME B16.34 para. 2.3.2. the pressure rating for service at any temperature below -20F shall be no greater that the ASME B16.34 ratings for -20°F. Products that are to operate at low temperatures shall conform to the rules of the applicable codes under which they are used.

Note 6: Pressure-Temperature Ratings of buttweld end valves may be limited by the buttweld end pressure rating. Buttweld end valves may be limited by the buttweld end pressure rating. end pressure ratings shall be calculated in accordance with the rules of the applicable codes under which they are used.
