

CHAPTER II

TECHNICAL STANDARDS APPLICABLE TO WORK

O.C. 89-2018, c. II.

DIVISION I

GENERAL

O.C. 89-2018, Div. I.

6. In this Regulation, a reference to a code or standard refers to the most recent edition published by the body and includes all the later amendments made to it.

Modifications and editions of the codes and standards published after 8 March 2018 apply to pressure installations only from the date of the last day of the sixth month following the publication of the French and English versions of those texts. Where those versions are not published at the same time, the period runs from the date of publication of the last version. If the amendments or editions are in one language, the period runs from their publication.

O.C. 89-2018, s. 6.

DIVISION II

MANUFACTURING WORK

O.C. 89-2018, Div. II.

§ 1. — *General*

O.C. 89-2018, Sd. 1.

7. Pressure equipment must be manufactured in accordance with CSA B51, Boiler, pressure vessel and pressure piping code, published by the CSA Group, hereinafter called “Manufacturing Code”.

In the case of refrigeration pressure equipment, it must be manufactured in accordance with the Mechanical Refrigeration Code.

O.C. 89-2018, s. 7.

§ 2. — *Amendments to the Manufacturing Code*

O.C. 89-2018, Sd. 2.

8. Despite the provisions regarding the registration of designs provided for in the Manufacturing Code, the designs and specifications for piping and accessories of category A, B and C, manufactured in accordance with a standard recognized at the national level by the American Society of Mechanical Engineers (ASME), are not required to be registered with the Board.

The designs and specifications must, however, be kept for purposes of verification by the Board.

O.C. 89-2018, s. 8.

SEE NEXT PAGE

Accessories / fittings are divided into categories. Accessories/ fittings must be registered by category. You must fill out one application per category, but one application can include many accessories / fittings of the same category.

The table below indicates:

- the categories of each type of accessories / fittings
- which accessories / fittings need registration depending on their category.

Category	Type of accessories	Registration information
A	Pipe fittings, including couplings, tees, elbows, wyes, plugs, unions, pipe caps and reducers	Only accessories manufactured according to a standard that is not recognized at the national level must be registered. To know the list of recognized standards, consult Tables 326.1 of the ASME B31.3, Process Piping, and article UG-44 of the Boiler and Pressure Vessel Code, Section VIII, Div. 1.
B	All flanges	Only accessories manufactured according to a standard that is not recognized at the national level must be registered. To know the list of recognized standards, consult Tables 326.1 of the ASME B31.3, Process Piping, and article UG-44 of the Boiler and Pressure Vessel Code, Section VIII, Div. 1
C	All line valves	Only accessories manufactured according to a standard that is not recognized at the national level must be registered. To know the list of recognized standards, consult Tables 326.1 of the ASME B31.3, Process Piping, and article UG-44 of the Boiler and Pressure Vessel Code, Section VIII, Div. 1
D	All types of expansion joints, flexible connections, and hose assemblies	All accessories must be registered.
E	Strainers, filters, separators, and steam traps	All accessories must be registered.
F	Measuring devices and indicating devices, including pressure gauges, level gauges, sight glasses, levels, and pressure transmitters	All accessories must be registered.
G	Certified capacity-rated pressure relief devices acceptable as primary overpressure protection on boilers, pressure vessels and pressure piping, and fusible plugs	All accessories must be registered.
H	Other	Each design must be registered separately.

Registration for Québec only
